

Strut Bushing Installation

People often ask, "how do I put these dang things in"?

It can be confusing, especially if they have been replaced before. All these images should help you see how they go.

For 64 1/2 – 66 Mustang owners, this original Shelby American photo shows it pretty well.

The folks at Scott Drake have kindly provided these photos, to make it much easier for folks who own 67-73 Mustangs.
